The Eisenhower at The Everett is a west facing single story four-season, clapboard sided cottage which offers a total of 4 bedrooms, 2 bathrooms, and a fully equipped kitchen.

The Eisenhower, with its vintage style screened in porch, directly faces Catfish Lake offering not only additional outdoor living space, but beautiful lake and Sunset views.

The Eisenhower cottage is located just steps from the gently sloping shoreline of beautiful Catfish Lake and offers full living and sleeping accommodations which are described in greater detail below.

In June 2018 The Everett resort property was purchased and is now under new ownership. During 2018 - 2019, Eisenhower at The Everett underwent extensive renovation with the new owners taking great care to honor and retain as much of each building's original structure and design as possible while at the same time, providing guests with all new and modern amenities. The response by locals familiar with this beloved property as well as guests who have witnessed it for the very first time has been nothing short of remarkable. The revival of this beautiful historical property, once a thriving resort during Eagle River's resort era, has been recaptured and ultimately transformed into a uniquely vintage vacation rental resort.
